## Letter from Your Editor

### SBAC Testing

Hello readers! It's that time of the year again when SBAC testing starts, so maybe you are stressed. Or maybe you feel hyped up. But probably most people are feeling anxious. Well don't be. Studies have shown that tests actually benefit teachers and students. If you are still scared, here's a few pieces of advice. Make sure to sleep early and eat your breakfast. Before the test, take a few deep breaths and stretch your arms and legs. During the test itself, take some time to read through the questions and

don't forget that you have tools like the highlighter, notepad, and even a dictionary and thesaurus! Don't forget the old saying, "Don't stress. Do your best. Forget the rest." With all of this in mind, do your best on the test!

*Sincerely, Gabriel Perez*
