

# PIONEER POST

Volume 2

November 13, 2018

Issue 2

Hello readers! Before I get started, I want to thank a Youtuber for inspiring me to have a creative mind. So, you just read the word “creative” and most of you readers with vivid minds know what this means. You might think that creative means that you can make things other people can’t, but it actually has a deeper meaning. Creativity is an invaluable skill that everyone has. Creativity is a skill that can be honed just like your own personal skills. We can use this important skill for not only writing but for real world situations. With creativity, we can accomplish many things, like inventing something revolutionary or making a difference in the world! Every day, you use creativity to bring the best of you.

This is *Gabriel Perez*, signing off.

## Friendship

**Friendship.** No matter what, we’ve all had a friend in our lives, even if they were only there for a short amount of time. To find a real friend though, you should look out for these characteristics: **honesty** even if it can be a bit brutal, **loyalty** even at the hardest moments, and being **respectful** of what you believe. Those people are what you call friends. You don’t even need to be in a big group to spot one. Being with one or two good friends who treat you right is way better off than being with a big group of people who you cannot count on as much. If you would like to make new friends and connections, you can start by talking to people you usually wouldn’t be interacting with. Who knows, you might find someone who shares similar interests as you do and makes you genuinely happy all the time. There are more than seven billion people on this planet Earth, and finding true friends you can count on is possible!

### Runnin’ For Rhett

The Runnin’ For Rhett race is on Saturday, December 1, 2018 in Downtown, Sacramento near the Capitol. The race starts at 12:00 P.M. So if you’re running, make sure you’re ready, and cheer on your teammates!

Thanksgiving Break is from November 19 – 23, so make sure you don’t come to school that week. Enjoy Thanksgiving with your family and friends, and be thankful for what you have!

**“It always seems impossible until it’s done.”**

–Nelson Mandela

## HARVEST BLAST

This year’s Harvest Blast was quite the blast. We had a large amount of families join in on the fun. The House had a new spooky ending celebration: dancing with your inner monster. It’s called the Monster Mash, added by our own PTO! Our staff had some spooky costumes. We also had volunteers who ran the games. Our Media Club crew went behind the scenes to find the pumpkin winners. The first place winner was Ms. Greif’s class, who had the Elmo and Cookie Monster pumpkins. Second place winner went to Ms. Davis’ class, who had the unicorn. Last but definitely not least, Mrs. Farnsworth came in third with the Dia de la Muertos pumpkin. Great work Pioneers!
