

PIONEER POST

Volume 2

October 9, 2018

Issue 1

Hello, Readers! Welcome back to a new school year at Union House Elementary! I want to start off by thanking my inspiring mentor, Ms. Davis, who taught me to persevere through all situations. So, this is a new school year and you're probably getting used to your teachers and who you have in your class. For some of you, you're probably nervous of these types of changes. However, some of you are excited for the constant changes. No matter how you're feeling though, we're all living in a world of constant changes. Without change, you wouldn't be able to get smarter. Without change, you wouldn't be able to experience new things. With these types of developments, we can see all types of things and learn many useful skills. I hope you take note of this because change is always happening.

With this in mind, this is *Gabriel Perez* signing off.

Pioneers Are Safe, Respectful, and Responsible

Be Safe

"I think that safe is a school rule because if we are not, we would get hurt."
-Benjamin Yang

Be Respectful

"I think that respectful is a school rule because we need to be reminded how people would want to be treated."
-Mrs. Farnsworth

Be Responsible

"I think that responsible is a school rule because if we aren't responsible for ourselves then it makes it harder for others."
-Mrs. Austin
